WOW KORRECTOR SADDLEPAD ▼

The Korrektor adjustable saddlepad is invaluable for a horse that regularly changes shape during its working life. It contains four air bags for adjustment and a foam sheet for shock absorbency. The bags can be adjusted to balance the saddle front to back, or side to side, and used as diagonal pairs for asymmetry compensation. Korrektor can easily be adjusted by the rider while mounted, to give full control of the saddle's fit.

◀ PRO-EQUINE NEEM OIL

Horse owners want an effective, reasonably-priced and legal way to repel insects. Neem oil has been used in India as an insecticide for years and has been tested by the University of Edinburgh as a midge repellent. Pro-Equine's Neem Oil is cold-pressed, with an Azadirachtin content (the active ingredient), and can also be used to prevent and treat sweet-itch, and to treat minor wounds.

EQUIAMI LUNGE AID ▲

The EquiAmi Lunge Aid promotes engagement of the hindquarters, and develops topline, core strength, balance and self-carriage – whilst being simple to fit and adjust. It self-centres, keeping the horse in a soft, equal contact, with no adjustment needed for bend or rein changes. EquiAmi training aids are used and endorsed by Natasha Baker MBE, Jonty Evans and Harry Meade amongst others, and recommended by trainers, therapists and vets for performance and rehabilitation.
